

CREATING AN IPOD AD

Direction	Screen Capture	Tool you are using
<p>Find a picture where you can remove the background easily. I chose this basketball player because it has a solid black color.</p> <p>Note: Remove the lock from the background layer by double clicking on the lock.</p>		<p>Google Images then right-click, choose Save picture as... and save on your desktop.</p> <hr/> <p>To find this picture go to my blog at ustudy.org</p>
<p>Crop out any unwanted part of the picture. Remove the background (from your picture) and use the Paint Bucket tool to make it a solid color like black or dark blue.</p>		 crop tool  paint bucket tool
<p>Now click on the Magic Wand Tool and click on the background color. Then click on Select -> Inverse. Press Delete.</p>		 magic wand tool

Direction	Screen Capture	Tool you are using
<p>The basketball figure should disappear and you'll see the background color with a shape in it. Press Ctrl-D to deselect your image.</p>		
<p>Fill in the background with black or a bright color using the Paint Bucket tool. Also change the white space to black.</p> <p>Add a word to your picture that is related to your picture. Remember the examples.</p>		 paint bucket tool
<p>Right click in the layers palette and choose Flatten image from the list.</p>		

Now that you have made one for practice here is your assignment:
 Create 4 different silhouettes like in your practice. Take those four silhouettes and merge them into one large 800 pixel by 800 pixel iPod ad similar to the samples below.

***Submit your pictures as JPEG with the name: yourlastname_firstname_ipod.jpg at ustudy.org
